

Hide me

Music & Lyrics by Ella Schultz

I see you
Come out now
Let's play another round
Then
I am seeking

Don't be liar
I won fair and square
But
I know it brings you down let's go
Back to hiding

Maybe it's my design
I've been wired
Please come down right now.
Cus I can't catch someone who think they're flying
Falling to ground

But all of your deeds
Reading my dreams
I'm not hungry
I'm not full but fully
Believing in anything you say to me now

Head at the table
The king of your four walls
But you're talking through the doors

Are you able
Make me restful
Aching bodies
I can't handle
But i'm not waiting
Anymore

Now i'm scrubbing my hands
Getting rid of your trace
But
They only get redder its acceptance ive gained
Would you have told me
That I lost it?
I've been stained for so long
That I never wash out I say
Out you stay out.
Out you stay.

But all of you deeds
Reading my dreams
I'm not hungry
I'm not full but fully
Believing in anything
You say to me now

There's a fire, in this darkness
And your stamping out the match

Laying dormant
Wake me up when
Everyone is
Finished talking

You say I'm wrong
No im not
Im screaming out like a kid again
And I've
Wanted so much for so long
I'm forgetting
Where I am

Two categories
Too many stories and
The fearful feeds on its inventory.

But are you able
Make me restful
Aching bodies
I cant handle
So I'll stay waiting
Craving changes
Stay in my placed
For tomorrow
And again
And again
